

## About UIH

Shanghai United Imaging Healthcare Co., Ltd. (“UIH”) is a member of the United Imaging Healthcare Technology Group Co., Ltd., which is dedicated to providing, developing and producing high-performance advanced medical imaging, radiotherapy equipment, life science instruments and offers intelligent digital solutions to customers worldwide. UIH was founded in 2011 and headquartered in Shanghai, and has subsidiaries and R&D centers across China, the United States, Malaysia, United Arab Emirates, Poland and other parts of the world.

UIH has a world-class talent team including more than 140 scientists with global experience and more than 500 employees with rich R&D and management experience in the medical industry. And 35% of 4,800 employees are R&D personnel.

UIH has launched over 70 ground-breaking products, including Total-Body PET/CT, HD TOF PET/MR, 75cm Ultra-Wide Bore 3.0T MR, 640-Slice CT Scanner, and Fully Integrated CT-linac. All core technologies are developed in house and have been globally or nationally recognized for world-leading performance.

UIH products have been installed in more than 8,700 medical and research institutes and nearly 900 top hospitals in 44 countries, including the U.S. and Japan. UIH topped China’s new market share lists in the PET/CT, PET/MR, MR, CT and Mobile DR sector in 2020.

UIH’s remote healthcare information system, UIHCloud, combines cutting-edge technologies such as mobile internet, cloud computing, and artificial intelligence (AI), and offers a series of cloud-based smart solutions for governments, hospitals, research institutes, and individuals. Since 2014, UIH has helped 31 provinces and municipalities in China build local hierarchical medical systems, covering more than 3,000 hospitals and nearly 200 million patients.

## About United Imaging Group

United Imaging Healthcare Technology Group Co., Ltd. (United Imaging Group) is a global leader in healthcare technology. With innovative solutions from prevention to diagnosis, treatment, and rehabilitation, United Imaging Group aims to build an intelligent healthcare ecosystem to benefit patients all over the world.

Supported by the Central Research Institute and subsidiaries, United Imaging Group develops and produces a full portfolio of advanced medical imaging and radiotherapy equipment, medical robots, smart wearables, e-medicine, medical artificial intelligence (AI) solutions, medical 3D printing and third-party precision medical diagnosis center services.

With our mission, “To Bring Equal Healthcare for All,” and our vision, “Leading Healthcare Innovation,” United Imaging Group is committed to creating more value for our customers and constantly improving the global accessibility of high-end medical equipment and services through in-depth cooperation with
